## ALL-NATURAL BETA GLUCAN DIETARY SUPPLEMENT

NON GMO

SOY FREE

GLUTEN FREE

VITAMIN C

NATURALLY SOURCED  
INGREDIENTS

KETO

KETO FRIENDLY

### HIGHLIGHTS REGARDING PROTECT+

Protect+ is an all-natural supplement that supports your immune system, so you can feel well and stay well. It contains the effective vegan vitamins D<sub>3</sub> and C, which contribute to a normal immune system, and high-potency, clinically proven 1-3, 1-6 beta glucans.

Protect works best when taken daily, as the key innate immune cells are renewed every 1-2 days and they all need priming in order to work effectively.

**Content:** 60 capsules

### ALL-NATURAL INGREDIENTS

- ▶ 1-3, 1-6 beta glucans derived from baker's yeast
- ▶ Vitamin C derived from acerola berries
- ▶ Vitamin D<sub>3</sub> derived from lichen
- ▶ Excipients derived from coconut, rice and corn

#### UNIQUE BETA GLUCAN BLEND

Ultra-effective triple source combination of 1-3, 1-6 beta glucans. All derived from highly purified baker's yeast.

#### IMMUNE SUPPORT

Combination of vitamin C and vitamin D<sub>3</sub> supporting your immune system to be at its best.\*

#### PROTECTION INSIDE

The vitamin C from acerola and vitamin D<sub>3</sub> from lichen work together to protect your cells from oxidative damage (rusting) and support the rebuilding of cells.\*

#### NEXT GEN NUTRITION

Protect+ is an all-natural supplement uniquely designed for you to be well and stay well.\*

#### VEGAN

Synergistic blend of all-natural and purely vegan ingredients, and registered with The Vegan Society.

## SUPPLEMENT FACTS

<b>Supplement Facts</b>		
Serving Size 1 Capsule Servings per Container 30		
	<b>Amount Per Serving</b>	<b>% Daily Value</b>
Blend of 1-3, 1-6 beta glucans from yeast ( <i>Saccharomyces cerevisiae</i> )	200 mg	†
Vitamin D <sub>3</sub>	20 mcg	100%
Vitamin C	20 mg	22%

† Daily Value not established

**OTHER INGREDIENTS:** Pregelatinized starch from corn, capsule shell (hydroxypropyl methylcellulose), medium chain triglycerides (mct) from coconut, rice hull fiber.

**SUGGESTED USE:** *Adults and children over 12 years:* 1 capsule daily. Do not exceed daily dose. Dietary supplements should not be used as a substitute for a varied diet and healthy lifestyle.

**STORAGE:** Store dry at room temperature. Best if consumed the sell by date.

**CAUTION:** If you are pregnant or lactating consult your healthcare provider before taking this product. Keep out of the reach of children.

**PROPRIETARY PROTECT BLEND:** 1-3, 1-6 beta glucans sourced from Norway, USA and Asia, vegan vitamin D<sub>3</sub> (cholecalciferol) from lichen, and vitamin C from acerola.

## OUR TWO IMMUNE SYSTEMS

We have two immune systems: the innate immune system and the adaptive immune system. Most of the time, the innate immune system is more important in protecting us against infection. It consists of specialized cells and enzymes that are always present and ready to fight microbes at the site of infection as soon as the threat appears. The adaptive immune system can remember specific pathogens so it can provide long-lasting defence and protection against recurrent infections. Vitamin D is crucial to activating all our immune defences, and without sufficient intake of the vitamin, the immune system is less able to fight off infections in the body.

## VITAMIN D

The most important form of vitamin D for your health is vitamin D<sub>3</sub> (cholecalciferol). It is produced in your skin when you get enough sunlight, but also occurs in vegan foods like mushrooms and non-vegan sources such as fatty fish, shrimps, egg and beef liver. In the northern part of the world, sun exposure is limited during the winter season, and therefore the skin does not produce enough vitamin D<sub>3</sub>. Insufficient vitamin D intake is common, and supplements play a crucial role in preventing and treating low vitamin D status.

There is only one vegan source for production of vitamin D<sub>3</sub>, namely lichen. The vegan vitamin D<sub>3</sub> in Protect+ is derived from organically grown, GMO-free lichen.

 Norwegian Formulation. Produced in Norway.

## VITAMIN C

The oxidative stress in our body varies both in different periods of life and from day to day. In situations when the oxidative stress increases, for example as a result of air pollution, heat and sun exposure, traveling and high-intensity exercise, our body needs more antioxidants. Antioxidants play an important role as internal neutralizers and protect our cells from oxidative damage (rusting). Protect+ contains the highly potent antioxidant known as vitamin C, which contributes to the protection of cells from oxidative stress.\*

## 1-3, 1-6 BETA GLUCANS

The 1-3, 1-6 beta glucans in Protect+ are a specialized and standardized form of beta glucans derived from a proprietary strain of baker's yeast. The 1-3, 1-6 beta glucans prime innate immune cells, allowing them to work more effectively. 1-3, 1-6 beta glucans are naturally found in foods such as baker's yeast, shiitake mushrooms, and some cereal grains but these are rarely consumed in today's modern diet.\*

## KEY BENEFITS

- ▶ **Contains vitamin C and D that contribute to the normal function of the immune system.\***
- ▶ **Contains vitamin C and D that contribute to normal energy-yielding metabolism\* and normal psychological function.\***
- ▶ **Contains vitamin D that has a role in the process of cell division.\***
- ▶ **Contains vitamin C that contributes to the protection of cells from oxidative stress.\***
